How do you get around Nedlands?

More people are choosing to walk, cycle and use public transport. This guide will help you get to university by walking or cycling, and Stage 1 of the bus network on foot, by bike or using public transport.

1. Mark where you live.
2. Mark where you want to go.
3. See if you can get to these places by walking, riding your bike or catching the bus. If you can, highlight the routes for quick access where you want and should.
4. To make even more use of this map, try the following:
   - Find a place you know you want to visit on the map, and
   - Use this map to help you navigate to get there, considering shortening your route. You might find something or meet someone that interests you.

How do I use this map?

- There are two types of bus stops on this map: regular stops and High Frequency Route (HFR) stops. Regular stops are bus stops. Bus stops shown on campus are shown on campus map. Follow these when you are using the bus service to reach the bus station.
- To find out which buses service your local area, see local bus service on the website www.transport.wa.gov.au or call 13 60 60. Once you have chosen your bus stop, you can get the timetable you need on your mobile phone or go to 139500 website. Otherwise, see the bus services for your bus stop number and the next service on the bus stop number chart at the top of your bus stop on the green area.

Catching the Bus or Train

On the green areas, the stars indicate these are bus routes. Bus services are shown on campus map. If you are using the bus services to reach the bus stop, you can get the timetable you need on your mobile phone or go to 139500 website. Otherwise, see the bus services for your bus stop number and the next service on the bus stop number chart at the top of your bus stop on the green area.
